The Nordic Model in Theory and Practice:
A conversation between the researched and the researcher

This talk will first provide a brief overview of the feminist sex wars and influence, and then move onto the working research design we are currently developing. The final and most substantial segment of this talk will be an unscripted dialogue between Holly Davis, the researcher, and M.P., the researched, about a wide range of issues surrounding the Nordic Model. In this discussion, we will explore topics such as the impact of the sex wars, feminism, stigma, sex work research, representation, working conditions for sex workers under The Nordic Model, policy and larger socio-political themes such as racism, sexism, classism and immigration/migration.
